

Looking for Talented Scientists

Organic/Medicinal Chemistry (M/F)

We are a leading Drug Discovery CRO for Life Sciences Organizations, providing expert Organic, High-Throughput, Medicinal and Analytical Chemistry services to the Pharmaceutical, Cosmetic, Crop Protection and Biotech Markets. Due to a sustained growth of our business, we are opening new positions in our organization. We are looking for talented Scientists to join our organization based in Lyon, France (an enjoyable and Life Sciences-dedicated city with over 6,000 scientist community in leading academic centers and private companies).

Missions

- You will be part of a project team, operating under the supervision of a Project Leader, and you will be designing and performing innovative molecule syntheses (or limited series of compounds), with a strong therapeutic potential.
- You will participate in the company's development and scientific achievements (for our most recent track record, see: <http://www.edelris.com/news/publications>).

Requirements

- Strong Organic Chemistry background at Ph.D. level (total synthesis, multi-step synthesis or methodology).
- A first industrial experience gained in a Pharma company or a Biotech/CRO would be beneficial.
- You are a dedicated, enthusiastic and creative team player and you have strong problem-solving skills.

Excellent verbal and written communication is required, as well as very good command of English.

Application

Please send your detailed CV and cover letter to: contact@edelris.com
